

TECHNICAL DATA SHEET – HPC 210 SS1 STERILISING SOLUTION

DESCRIPTION:

SS1 - Sterilising Solution is a specially prepared, ready to use wash for use before painting to protect against mould or fungi.

ADVANTAGES:

Kills spores of mould and algae and its effective use will enable decoration of the treated surface with minimal risk of re-infection from the old surface.

COLOUR:

Colourless

PACK SIZE

Supplied in 5 & 25 litres

COVERAGE RATES:

6 - 8 m² per Litre (depending on substrate porosity).

SURFACE PREPARATION:

Remove grease, dirt and all loose and flaking material. Remove mould or algae with a scraper, stiff brush or power washing.

The remaining spores will then be killed by washing down with one or two applications of SS1 - Sterilising Solution.

APPLICATION:

Brush, soft cloth or spray.

STORAGE:

Store away from direct sunlight and sources of heat. Protect from frost.

SHELF LIFE:

12 months (in original sealed container).

HEALTH & SAFETY:

Refer to MSDS
